EXPLANATION:

- **Tuition** includes but is not limited to covering the costs of teachers, building maintenance, operating expenses of the school, repairs, improvements, equipment, and overhead of the school itself, etc.
- **Books and Supply Fees** cover the cost of textbooks, consumables, copy paper and toner, other school supplies used for the student's benefit.
- **Application Fee and Registration Fee** are processing fees to cover the time and expenses of processing applications, conducting interviews, assessment testing and collection and processing of student records, recommendations and other necessary student administrative data.
- **Testing Fee** partially covers the cost of the administration, collection, processing, grading and recording the Terra Nova Test that the school administers to all students enrolled in Core classes.
- **Insurance Fee** covers the necessary expense of maintaining insurance for the school and may in time be extended to the individual student as well (but may require a further adjustment if so done).
- **Elective/Activity Fees** covers any additional cost or expense in providing specialized materials for specific classes. Not all classes have these expenses, (e.g. the necessity of special canvases, brushes, paints for art classes, food for cooking classes etc.).
